

# Md Farhan Rahman

**Address:** Mirpur-2, Dhaka

**Phone:** 01888773885

**Email:** [mdfarhanr72@gmail.com](mailto:mdfarhanr72@gmail.com)

## Career Objective

---

I am a dedicated Software Developer with a strong foundation in PHP and the Laravel framework, passionate about building scalable, secure, and efficient web applications. Currently pursuing a Bachelor of Science in Computer Science and Engineering at AIUB, I have hands-on experience with backend development, RESTful APIs, and modular business systems such as ERP, HRM, and CRM. I am seeking an opportunity to apply my skills in a dynamic software company, contribute to real-world commercial applications, and grow as a professional backend developer.

## Educational Background

---

**Degree:** Bachelor of Science (B.Sc.) in Computer Science and Engineering

**Institution:** American International University-Bangladesh (AIUB)

**Passing Year:** Expected 2026 CGPA/GPA: 3.50

## Work Experience

---

**Job Title:** Junior Web Developer (Part-Time)

**Company:** TechCare BD Ltd.

**Duration:** June 2025 – Present

**Responsibilities:**

- Assisted in developing and maintaining small business web applications using PHP and the Laravel framework.
- Worked with MySQL databases to design tables and write queries for basic CRUD operations.
- Helped build simple RESTful APIs for internal modules and tested endpoints using Postman.
- Supported senior developers in debugging issues and used Git/GitHub for version control during team tasks.

## Skills

---

- PHP, Laravel, MySQL, JavaScript, jQuery, RESTful APIs
- Laravel Sanctum, JWT, OAuth (Authentication & Authorization)
- Laravel Livewire, Laravel Nova (Laravel Ecosystem Packages)
- Modular System Architecture: PMS, HRM, Accounts, Inventory, CRM
- Server Deployment & Cloud Hosting: AWS, DigitalOcean
- Git, GitHub, Teamwork, Communication, Problem Solving

## Awards and Memberships

---

- Member, AIUB Computer Club
- Participated in a PHP & Laravel Backend Development Workshop organized by AIUB Computer Club
- Attended an AWS Cloud Fundamentals webinar covering server deployment and hosting basics
- Completed a university course project: a modular Inventory Management System using Laravel and MySQL
